Tacoma Dome Link Extension Draft Environmental Impact Statement Public Engagement Summary

Executive summary

The Tacoma Dome Link Extension (TDLE) project is in the planning phase. Sound Transit published a Draft Environmental Impact Statement (EIS) on Dec. 13, 2024, and held an extended 60-day public comment period from Dec. 13, 2024, until Feb. 10, 2025, to invite the public, Tribes, and agencies to review the Draft EIS and comment on its analysis. The Draft EIS includes analysis of the alternatives studied during environmental review and proposes ways to mitigate unavoidable impacts. Sound Transit provided information about the Draft EIS in English, Spanish, Korean, Russian, Vietnamese, and Khmer and invited comments through an online open house, mail, email, voicemail, printed comment form, and four public meetings and hearings. More than 5,000 people visited the online open house during the comment period including over 500 visitors to the translated sites. In total, we received 318 comment submissions.

This document summarizes outreach activities and public participation during the Draft EIS comment period. For a summary of public comments submitted on the Draft EIS, please read the Draft EIS Comment Summary Report. The Final EIS will include responses to substantive comments on the Draft EIS and is anticipated to be published in 2027.

El proyecto Extensión de Link al Tacoma Dome está en fase de planificación. Sound Transit publicó un borrador de la Declaración de Impacto Ambiental (EIS, por sus siglas en inglés) el 13 de diciembre de 2024, que contó con un período ampliado en el que el público podía comentar sobre él (que duró 60 días desde el 13 de diciembre de 2024 hasta el 10 de febrero de 2025); la finalidad era invitar al público, a las tribus y a las agencias a revisar el borrador del EIS y comentar sobre su análisis. El borrador del EIS incluye el análisis de las alternativas estudiadas durante la revisión ambiental y propone formas de mitigar los impactos inevitables. Sound Transit proporcionó información sobre el borrador del EIS en inglés, español, coreano, ruso, vietnamita y jemer. Mediante una jornada de puertas abiertas invitó a que las personas enviaran sus comentarios en línea, por correo postal, por correo electrónico, mediante un mensaje de voz, un formulario de comentarios impreso o cuatro reuniones y audiencias públicas. Más de 5000 personas visitaron la jornada de puertas abiertas en línea durante el período para comentar, en los que también hubo más de 500 visitantes que visitaron los sitios traducidos. En total, recibimos 318 comentarios.

Este documento resume las actividades de divulgación y la participación pública durante el período para comentar sobre el borrador del EIS. Para obtener un resumen de los comentarios del público

que se presentaron sobre el borrador del EIS, se puede consultar el Informe resumido de comentarios sobre el borrador del EIS. El EIS final incluirá respuestas a los comentarios más sustanciosos sobre el borrador del EIS y está previsto que se publique en el 2027.

Проект дополнительной ветки Link к Tacoma Dome находится на этапе планирования. Агентство Sound Transit опубликовало проект отчета о воздействии на окружающую среду 13 декабря 2024 г. и провело продолжительные 60-дневные общественные обсуждения с 13 декабря 2024 г. по 10 февраля 2025 г. с целью пригласить общественность, племена и агентства изучить проект отчета и прокомментировать его анализ. Проект отчета о воздействии на окружающую среду включает анализ альтернативных вариантов, изученных во время оценки воздействия на окружающую среду и предлагает способы минимизировать неизбежное воздействие. Агентство Sound Transit предоставило информацию о проекте отчета о воздействии на окружающую среду на английском, испанском, корейском, русском, вьетнамском и кхмерском языках, а также предложило направлять комментарии посредством собрания в режиме онлайн, почты, электронной почты, голосовой почты, печатной формы для комментариев и четырех публичных встреч и слушаний. Во время периода комментирования собрание в режиме онлайн посетило более 5000 человек, в том числе более 500 человек посетило сайты на других языках. Всего мы получили 318 комментариев.

В данном документе кратко излагаются мероприятия по работе с населением и участие населения в период комментирования проекта отчета о воздействии на окружающую среду. Краткое изложение комментариев населения к проекту отчета о воздействии на окружающую среду см. в кратком отчете о комментариях к проекту отчета о воздействии на окружающую среду. Заключение о воздействии на окружающую среду будет включать ответы на комментарии по существу к проекту отчета о воздействии на окружающую среду; ожидается, что оно будет опубликовано в 2027 г.

Tacoma Dome Link(타코마돔 경전철) 확장(TDLE) 프로젝트는 계획 단계에 있습니다. Sound Transit 에서는 2024 년 12 월 13 일에 환경영향평가서(EIS) 초안을 발표하고 2024 년 12 월 13 일부터 2025 년 2 월 10 일까지 60 일간의 공개 의견 수렴 기간을 연장하여 일반인, 부족 및 기관이 초안을 검토하고 분석에 대한 의견을 제시할 수 있도록 초대했습니다. EIS 초안에는 환경 검토 과정에서 연구된 대안에 대한 분석과 피할 수 없는 영향을 완화할 수 있는 방법을 제안하는 내용이 포함되어 있습니다. Sound Transit 에서는 영어, 스페인어, 한국어, 러시아어, 베트남어, 크메르어로 EIS 초안에 대한 정보를 제공하고, 온라인 오픈하우스, 우편, 이메일, 음성 메일, 인쇄된 의견 양식, 4 차례의 공개 회의 및 공청회를 통해 의견을 요청했습니다. 의견 수렴 기간 동안 온라인 오픈하우스에는 5,000 명 이상이 방문했으며 번역된 사이트에는 500 명 이상이 방문했습니다. 총 318 건의 의견이 제출되었습니다.

본 문서에는 EIS 초안 의견 수렴 기간 동안의 홍보 활동과 대중 참여가 요약되어 있습니다. EIS 초안에 대해 제출된 대중의 의견을 요약한 내용은 EIS 초안 의견 요약 보고서를 참조하십시오. 최종 EIS 에는 초안에 대한 주요 의견에 대한 답변이 포함될 예정이며 이는 2027 년에 발표될 예정입니다.

Dự án Mở Rộng Tuyến Tacoma Dome Link (TDLE) đang trong giai đoạn lập kế hoạch. Sound Transit đã công bố Bản Thảo Báo Cáo Tác Động Môi Trường (EIS) vào ngày 13 tháng Mười Hai năm 2024 và tổ chức một đợt lấy ý kiến công chúng kéo dài 60 ngày, từ ngày 13 tháng Mười Hai năm 2024 đến ngày 10 tháng Hai năm 2025, để kêu gọi công chúng, các Bộ Lạc và các cơ quan chức năng xem xét Bản Thảo EIS và đóng góp ý kiến về phân tích của báo cáo. Bản Thảo EIS bao gồm phân tích các phương án đã được nghiên cứu trong quá trình đánh giá tác động môi trường và đề xuất các biện

pháp giảm thiểu tác động không thể tránh khỏi. Sound Transit đã cung cấp thông tin về Bản Thảo EIS bằng tiếng Anh, tiếng Tây Ban Nha, tiếng Hàn Quốc, tiếng Nga, tiếng Việt và tiếng Khmer, đồng thời kêu gọi đóng góp ý kiến thông qua các hình thức như: phiên họp nhà mở trực tuyến, gửi thư, email, thư thoại, mẫu phiếu đóng góp ý kiến in sẵn và bốn cuộc họp cũng như phiên điều trần công khai. Hơn 5.000 người đã truy cập vào phiên họp nhà mở trực tuyến trong thời gian lấy ý kiến, trong đó có hơn 500 lượt truy cập vào các trang web đã dịch. Tổng cộng, chúng tôi đã nhận được 318 ý kiến đóng góp.

Tài liệu này tóm tắt các hoạt động tiếp cận cộng đồng và sự tham gia của công chúng trong thời gian lấy ý kiến về Bản Thảo EIS. Để xem bản tóm tắt các ý kiến đóng góp của công chúng về Bản Thảo EIS, vui lòng đọc Báo Cáo Tóm Tắt Ý Kiến về Bản Thảo EIS. Báo cáo EIS Cuối Cùng sẽ bao gồm các phản hồi đối với những ý kiến đóng góp có giá trị về Bản Thảo EIS và dự kiến sẽ được công bố vào năm 2027.

Overview

As part of voter-approved funding for regional Link light rail expansion, the Tacoma Dome Link Extension (TDLE) will add approximately 10 miles to our regional light rail system via mostly elevated tracks between South Federal Way and Tacoma. In 2024, the Sound Transit Board identified the South 336th Street site alternative in Federal Way as the project to be built for the Operations and Maintenance Facility (OMF) South project. As a result, 1.4 miles of the TDLE project will be constructed as part of the OMF South project.

The Tacoma Dome Link Extension program launched in 2018. Following multiple engagement periods that kicked off the environmental review process, Sound Transit is currently considering multiple alternatives that will expand light rail to south King and Pierce counties with four stations in South Federal Way, Fife, Portland Avenue in Tacoma, and near the Tacoma Dome. See Appendix A for a map of the alternatives we studied in the Draft EIS.

On Dec. 13, 2024, we published our Draft EIS, which includes analysis of multiple TDLE alternatives and their potential impacts to the natural and built environment. It also proposes ways to mitigate unavoidable impacts. We held an extended 60-day comment period from Dec. 13, 2024, to Feb. 10, 2025, to invite comments on the Draft EIS findings.

Comment opportunities

From Dec. 13, 2024, until Feb. 10, 2025, the public, Tribes, and agencies were invited to comment on the Draft EIS in the following ways:

- Online at soundtransit.org/tdlink-deis.
- Virtual or in-person at public meetings and hearings
- Email to tdlinkdeis@soundtransit.org.
- Voicemail at 206-257-2144.
- Letter to Tacoma Dome Link Extension Draft Environmental Impact Statement Comments c/o Elma Borbe Sound Transit, 401 S Jackson Street, Seattle, WA 98104.

We received 318 public comment submissions on the Draft EIS (see Appendix B for a breakdown of comments by method). Additionally, the Draft EIS Comment Summary Report is available on the TDLE project website.

Outreach activities

Community input is integral to the success of the TDLE project. Sound Transit is committed to equitable community engagement approaches that incorporate previous lessons learned to strengthen future engagement and community conversations. Sound Transit values building stronger relationships with historically underserved communities within the TDLE project corridor. Our team utilized the below in-person and virtual engagement methods to promote the project and the comment period.

Online open house (soundtransit.org/tdlink-deis)

We launched an online open house for the duration of the comment period (Dec. 13, 2024 – Feb. 10, 2025). Members of the public could visit the website to access the Draft EIS and supporting materials, review a summary of the Draft EIS findings, and submit Draft EIS comments via an online comment form. In addition to English, the website was available for viewing in Spanish, Korean, Russian, Vietnamese and Khmer. More than 5,000 people visited the online open house, including more than 500 visitors to the translated sites. See Appendix C for a breakdown of online open house visitors by site language as well as a snapshot and link to a full screenshot of the online open house.

Public meetings and hearings

Sound Transit hosted one virtual and three in-person public meetings and hearings to provide information about the Draft EIS, answer questions, and offer attendees the opportunity to provide public comment.

Meeting/hearing date and time	Location	Number of attendees
Jan. 21, 2025, 11:30 a.m. – 1:30 p.m.	Zoom Webinar	53
Jan. 23, 2025, 5:30 – 7:30 p.m.	Greater Tacoma Convention Center	37

Jan. 28, 2025, 5:30 – 7:30 p.m.	Federal Way Performing Arts and Events Center	28
Jan. 30, 2025, 5:30 – 7:30 p.m.	Fife Community Center	51

The agenda for the virtual public meeting and hearing included:

- 11:30 a.m. – noon: Overview presentation
- Noon – 12:30 p.m.: Question-and answer session
- 12:30 – 1:30 p.m.: Public hearing

The presentation provided an overview of the TDLE Project, route and station options studied in the Draft EIS, and information on the project's next steps. The question-and-answer segment offered the public the opportunity to submit written questions for answers from a panel of Sound Transit staff who represented different disciplines on the project team, including engineering and design, environmental, community engagement, and real property. The public hearing included a Sound Transit representative who listened to attendees who provided a public comment. A court reporter documented the verbal public comments as official Draft EIS comments. Commenters were given a two-minute time limit and could speak only once.

A live captioner provided subtitles in English while Spanish, Vietnamese, and Russian interpreters provided simultaneous interpretation in audio channels. Sound Transit staff communicated the language and accessibility features throughout the meetings and hearings to ensure attendees understood how to fully participate. We attempted to secure ASL interpretation; however, due to a nationwide shortage of ASL interpreters, no one was available.

Attendees at the Fife public meeting and hearing listen to a presentation before providing public comment.

The agenda for each of the in-person public meetings and hearings included:

- 5:30 – 6 p.m.: Open house-style event
- 6 – 6:30 p.m.: Overview presentation
- 6:30 – 7:30 p.m.: Public hearing

During the open house style event, attendees could review project information on display boards and ask questions from project subject matter experts representing engineering and design, environmental, community engagement, and real property. The presentation provided an overview of the TDLE Project, route, and station options studied in the Draft EIS, and information on the project's

next steps. During the hearing, attendees had the opportunity to sign up to provide a verbal public comment into a microphone in front of a Sound Transit representative and court reporter to receive and document the comments. Attendees could revisit the open house section of the meeting at any time to continue engaging with project subject matter experts. Spanish and Vietnamese interpreters were available to provide consecutive interpretation. We attempted to secure ASL interpretation; however, due to a nationwide shortage of ASL interpreters, no one was available.

Property owner engagement

In November 2024, Sound Transit mailed a property owner letter to all property owners potentially affected by any TDLE alternative studied in the Draft EIS. The property owner letter included a link to an online scheduling tool where property owners could sign up for a virtual property owner presentation via Zoom webinar. The presentation included a project overview, environmental review timeline, and a high-level overview of the property acquisition and relocation process. TDLE project staff will continue to offer briefings and additional resources to property owners upon request.

Mailers and posters

The project team sent 13,956 mailers to residences and businesses within a half-mile radius of the project corridor. The mailer included content in English, Korean, Russian, Spanish, Vietnamese, and Khmer. The content included information about the comment period, an overview of the project alternatives, directions on how to comment, and resources for where recipients could find more information about the Draft EIS. A vendor placed 200 posters at commercial retail locations in the project corridor. The poster was translated into Khmer, Korean, Russian, Spanish, and Vietnamese. See Appendix D for screenshots of the Draft EIS mailer, a screenshot of the poster, and a list of locations the vendor distributed the posters.

Project listserv updates (GovDelivery)

The project team sent four email updates regarding the Draft EIS comment period to over 5,900 subscribers of the TDLE project GovDelivery listserv. These listserv updates announced the publication of the Draft EIS and the start of the comment period, directed recipients on how to access the document and submit comments, and invited people to the public meetings and hearings. See Appendix E for screenshots of the listserv updates.

Legal notices

Sound Transit ran a legal notice about the availability of the Draft EIS for public comment in *The Seattle Times, The News Tribune*, and *Seattle Daily Journal of Commerce*. Legal notices ran between Dec. 9, 2024, and Jan. 1, 2025. The legal notice provided information on the project, availability of the Draft EIS, public meeting times and locations, and how to comment. See Appendix F for screenshots of the legal notices.

Press releases and earned media

Sound Transit distributed two press releases, one in December 2024 to announce the start of the comment period and one in January 2025 to announce the public meetings and hearings. The team also monitored local and regional media outlets that wrote articles about the project and the comment period on their own accord (earned media). Many of the articles encouraged readers to visit the

project website and comment on the Draft EIS findings. See Appendix G for links to the press releases and earned media articles.

Online and print display ads

Sound Transit ran print and online display ads campaigns in 11 publications throughout the comment period. Ad placements included English, Spanish, Korean, Vietnamese, and Russian publications to reach audiences in the project area and region. The ad messaging encouraged audiences to learn more about the Draft EIS and submit comments on the Draft EIS findings. The project team placed ads in the following publications: *Federal Way Mirror, International Examiner, El Siete Dias, Korean Times Seattle, Russian Town Seattle, The News Tribune, Weekly Volcano, South Sound Biz, Tacoma Weekly, Tu Decides Newsletter,* and *Northwest Vietnamese*. See Appendix H for screenshots of a sample of display ads and their placements in publications.

Social media

Sound Transit promoted the TDLE Draft EIS comment period and online open house via content on Sound Transit's Facebook account. The social media campaign included organic and sponsored Facebook posts for the Draft EIS comment period reaching over **82,800** people. See Appendix I for screenshots of the social media posts.

Outreach toolkit

The community engagement team developed and distributed an outreach toolkit to over 55 community organizations, chambers of commerce, and neighborhood associations along the project corridor. The toolkit included resources on how to promote the Draft EIS comment opportunities and events via posters, emails, newsletter content, and social media images and copy. This toolkit helped our partners more easily share information about the TDLE project and Draft EIS background information, open house and hearing events, and different ways the community could comment and stay connected to the project. See Appendix J for the full list of organizations that received the toolkit.

Briefings to organizations and jurisdictions in the project corridor

Since 2018, Sound Transit has fostered and maintained relationships with many organizations and community groups in and around the project corridor. We reached out to many of these organizations and community groups to offer to attend their standing meetings and share information about the Draft EIS comment period and to encourage the groups to submit comments. Our team also has regular touchpoints with jurisdictional staff and elected leaders within the project corridor. We met with 29 organizations and jurisdictions, and agencies during the comment period. Sound Transit tailored conversations to individual organizations to better meet the needs of the groups. Discussion topics also included questions about the EIS process, next steps for the Sound Transit Board, how community input factors into the Board identification of a preferred alternative, and other Sound Transit projects and services. Sound Transit met with the following groups:

Jurisdictions, city councils, commissions, and agencies

- Pierce County subarea
- North King County subarea
- South King County subarea
- East King County subarea
- Snohomish County subarea
- City of Federal Way

- City of Fife
- City of Milton
- City of Tacoma
- Federal Way City Council
- Federal Way Planning Commission
- Pierce County Transportation Advisory Commission
- Tacoma Planning and Transportation Commission
- Pierce County Regional Council Growth Management Coordinating Committee
- South County Area Transportation Board
- Interagency Advisory Group
- Port of Tacoma
- Washington Department of Transportation

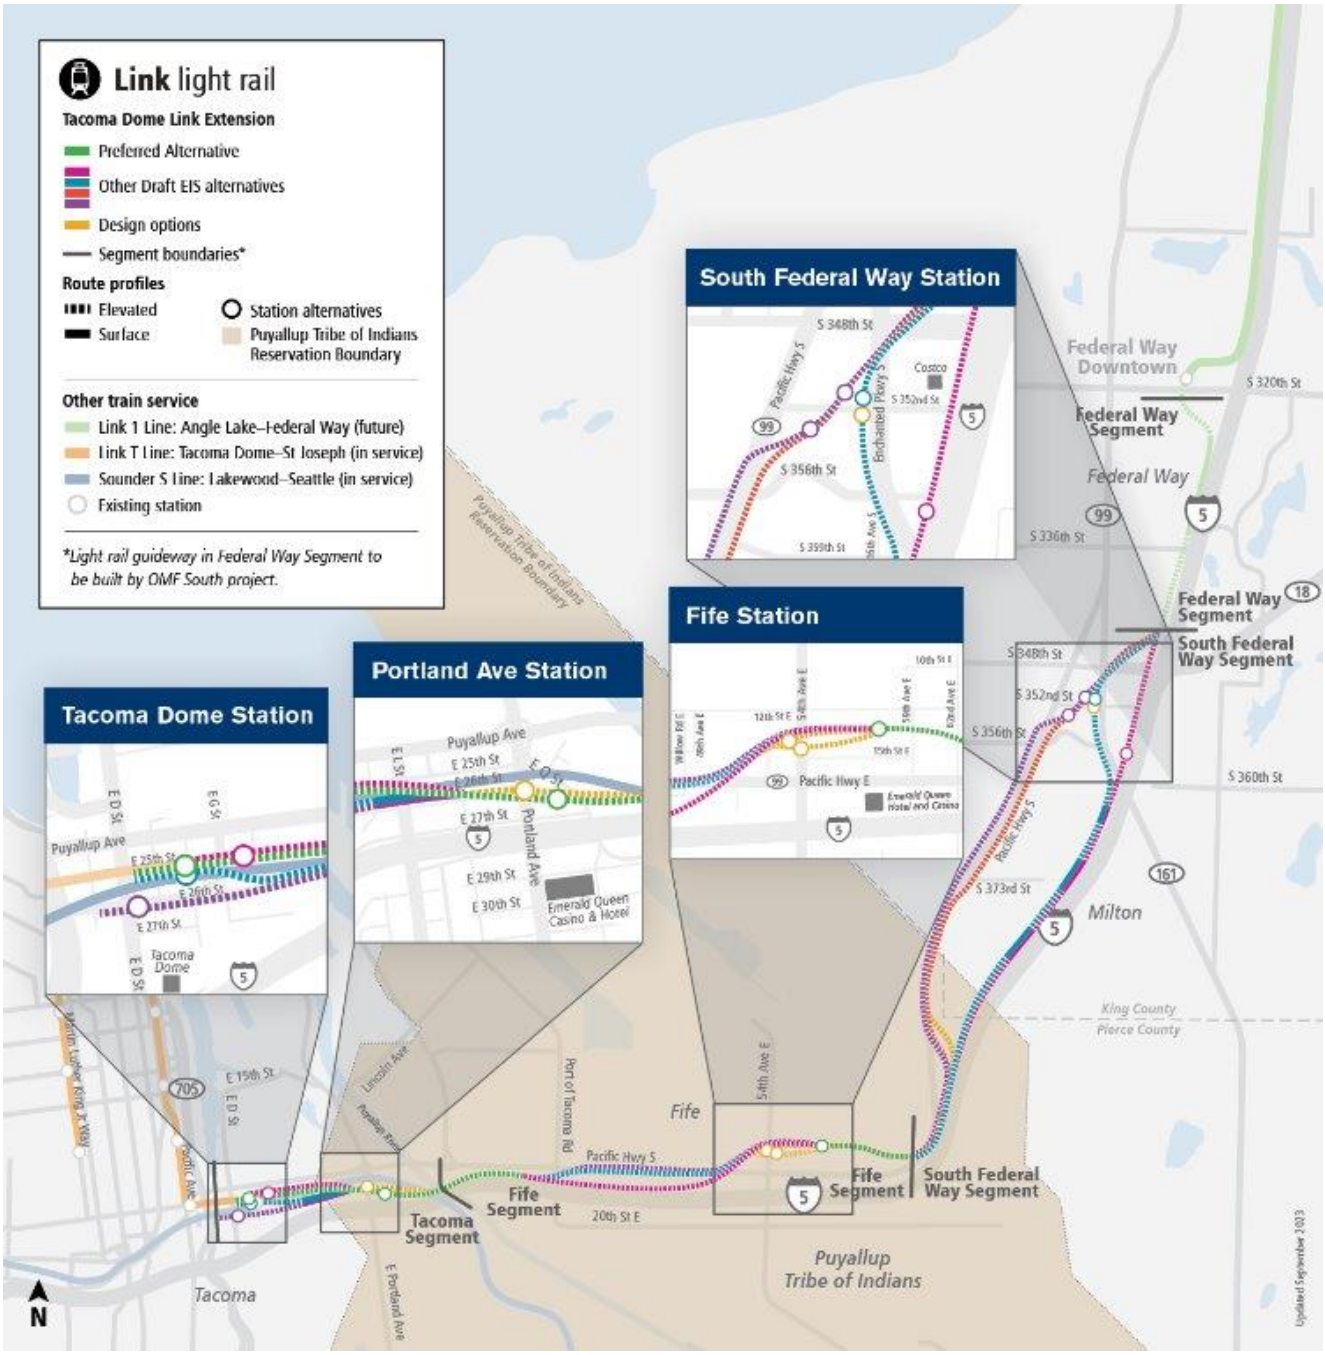
Stakeholder groups, businesses, and organizations

- Downtown on the Go
- Federal Way Chamber of Commerce
- Fife Milton Edgewood Chamber of Commerce
- Commencement Bay Trustee Council
- Multi-Service Center
- St. Paul Chong Hasang Church
- Regional Access Mobility Partnership, Tacoma-Pierce County Chamber
- The Church of Jesus Christ of Latter-day Saints
- Gethsemane Catholic Cemetery
- Employee Transportation Coordinators (ETC) Network
- DBM Contractors, Inc.
- Costco
- Fife Camping World
- O'Brien Auto Group
- Schnitzer Properties
- Walmart
- Seattle Children's Hospital
- Corliss Resources
- Lee Johnson Auto Group

Outcomes and next steps

The Draft EIS Comment Summary Report, or a summary of all the comments we received, is available on the project website. The Sound Transit Board will consider public input on the Draft EIS to confirm, modify, and/or identify a "preferred alternative" for evaluation in a Final EIS along with other alternatives. A preferred alternative is a statement of preference based on currently available information, it is not a decision on the project to build. The Final EIS will include responses to all substantive comments received on the Draft EIS. The Final EIS is planned to be published in 2027. After the Final EIS, the Sound Transit Board will select the project to be built, and the Federal Transit Administration will issue a Record of Decision, prompting the project's final design phase.

Appendix A: TDLE Draft EIS alternatives overview map



Appendix B: Comments received by comment method

The table below shows the number of public comment submissions on the Draft EIS that were received for each comment method. For a summary of public comments submitted on the Draft EIS, please read the Draft EIS Comment Summary Report.

Method	Number of comment submissions
Online open house	169
Email	71
Letter	33
Voicemail	15
Verbal/in-person	25
Printed form	5
Total	**318**

Appendix C: Online open house

The snapshot below shows the online open house that was live from Dec. 13, 2024 – Feb. 10, 2025. A full capture of the site can be accessed on the project website. The site was available in English, Spanish, Korean, Russian, Vietnamese, and Khmer.

Online open house site	Number of users
English	4445
Korean	67
Spanish	26
Russian	43
Vietnamese	50
Khmer	378
Total	**5009**

Welcome

Draft Environmental Impact Statement now available

On Dec. 13, 2024, Sound Transit and the Federal Transit Administration (FTA) published the Draft Environmental Impact Statement (EIS) for the Tacoma Dome Link Extension (TDLE). Explore the sections below to learn more about the route and station alternatives being studied.

After reviewing, share your thoughts by submitting a comment online or learn about other ways to comment. We invite you to review and comment by Feb. 10, 2025.

Comment on the Draft EIS by Feb. 10, 2025

After reviewing the information on the Draft EIS, share your feedback with Sound Transit.

- Comment via the online comment form
- Attend an in-person public meeting and hearing:
  - Greater Tacoma Convention Center | Jan. 23, 5:30-7:30 p.m. 1500 Commerce Street, Tacoma
  - Federal Way Performing Arts and Events Center | Jan. 28, 5:30-7:30 p.m. 31501 Pete Von Reichbauer Way South, Federal Way
  - Fife Community Center | Jan. 30, 5:30-7:30 p.m. 2111 54th Avenue East, Fife
- Attend the online public meeting and hearing via Zoom:
  - Jan. 21, 11:30 a.m. - 1:30 p.m.

About the project

The Tacoma Dome Link Extension will add nearly 10 miles to the regional light rail system between Federal Way Downtown Station and the Tacoma Dome. This extension will provide fast and reliable connections to regional destinations, residential areas, and job centers.

What's happening now?

Sound Transit and the Federal Transit Administration published the Draft Environmental Impact Statement (EIS) on Dec. 13, 2024, in accordance with the National and State Environmental Policy Acts. This document details the project's potential impacts and benefits to the natural and built environment and proposes mitigation measures.

The Draft EIS is available online at soundtransit.org/tdlink-deis and in a variety of formats and locations. To request a copy, contact Dominique Jones at dominique.jones@soundtransit.org or 206-698-4783.

Acerca del proyecto

La ampliación de Tacoma Dome Link sumará casi 10 millas al sistema regional de tren ligero entre la estación Federal Way Downtown y Tacoma Dome. Esta ampliación proporcionará conexiones rápidas y fiables a destinos regionales, zonas residenciales y centros de empleo.

¿Qué sucede ahora?

Sound Transit y la Administración Federal de Tránsito publicaron el borrador de la Declaración de Impacto Ambiental (DIA) el 13 de diciembre de 2024, de conformidad con las Leyes de Política Ambiental Nacional y Estatal. Este documento detalla los posibles impactos y beneficios del proyecto para el entorno natural y construido y propone medidas de mitigación.

El borrador del EIS está disponible en línea en soundtransit.org/tdlink-deis y en una variedad de formatos y ubicaciones. Para solicitar una copia, comuníquese con Dominique Jones a dominique.jones@soundtransit.org o al 206-698-4783.

О проекте

Расширение линии Tacoma Dome Link добавит почти 10 миль к региональной системе легкорельсового транспорта между станцией Federal Way Downtown и Tacoma Dome. Это дополнение обеспечит быструю и надежную связь с региональными пунктами назначения, жилыми районами и центрами занятости.

Что происходит сейчас?

Sound Transit и Федеральное управление транзита опубликовали проект заявления о воздействии на окружающую среду (EIS) 13 декабря 2024 года в соответствии с национальными и государственными законами об экологической политике. В этом документе подробно описываются потенциальные воздействия и выгоды проекта для природной и антропогенной среды, а также предлагаются меры по смягчению последствий.

Проект EIS доступен онлайн по адресу soundtransit.org/tdlink-deis и в различных форматах и местах. Чтобы запросить копию, свяжитесь с Доминик Джонсом по адресу dominique.jones@soundtransit.org или по телефону 206-698-4783.

Về dự án

Tuyến mở rộng Tacoma Dome Link sẽ bổ sung thêm gần 10 dặm vào hệ thống đường sắt nhẹ khu vực giữa Ga trung tâm Federal Way và Tacoma Dome. Tuyến mở rộng này sẽ cung cấp kết nối nhanh chóng và đáng tin cậy đến các điểm đến trong khu vực, khu dân cư và trung tâm việc làm.

Chuyện gì đang xảy ra vậy?

Sound Transit và Cục Quản lý Giao thông Liên bang đã công bố Bản dự thảo Tuyên bố Tác động Môi trường (EIS) vào ngày 13 tháng 12 năm 2024 theo Đạo luật Chính sách Môi trường Quốc gia và Tiểu bang. Tài liệu này nêu chi tiết các tác động và lợi ích tiềm tàng của dự án đối với môi trường tự nhiên và xây dựng, đồng thời đề xuất các biện pháp giảm thiểu.

Bản dự thảo EIS có sẵn trực tuyến tại soupdtransit.org/tdlink-deis và ở nhiều định dạng và địa điểm khác nhau. Để yêu cầu một bản sao, hãy liên hệ với Dominique Jones theo địa chỉ dominique.jones@soundtransit.org hoặc số 206-698-4783.

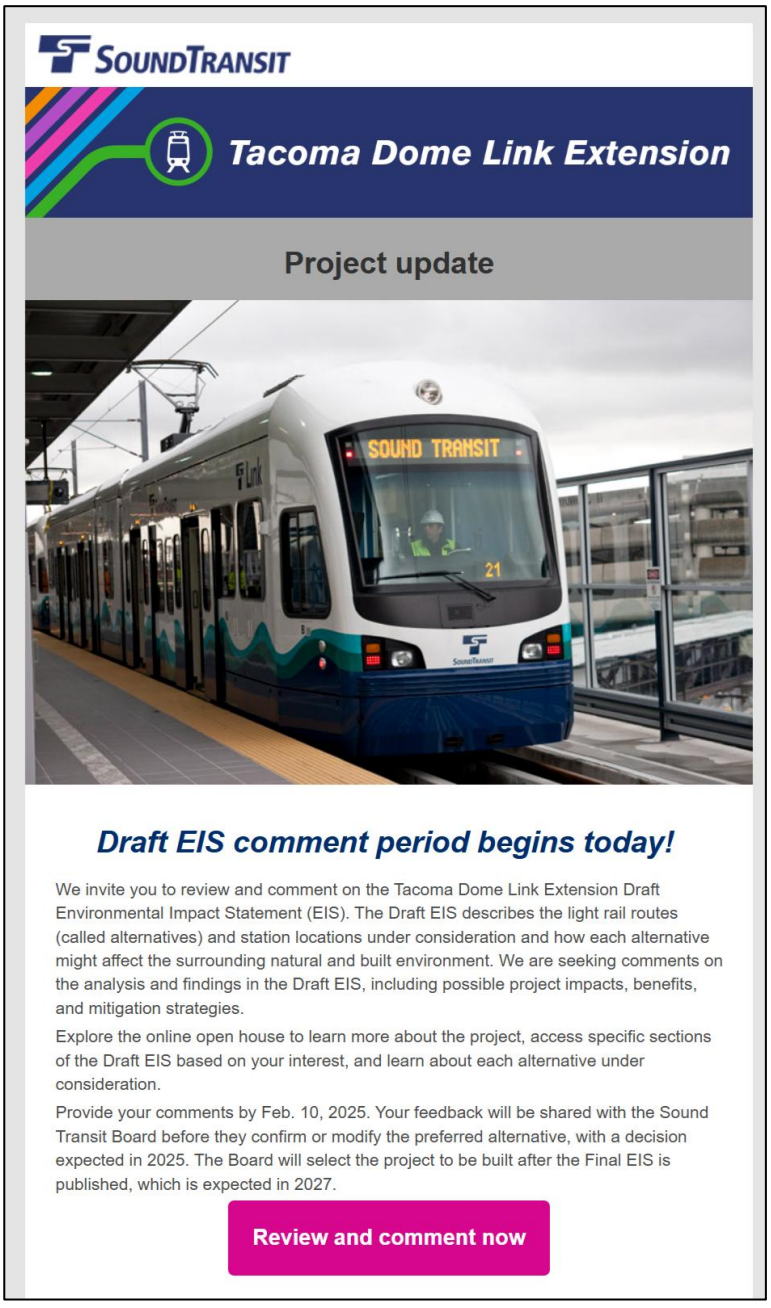
Appendix E: Project listserv updates (GovDelivery)

The following images show project listserv emails sent to Sound Transit project email subscribers on Dec. 13, 2024, and Jan. 17, Feb. 4, and Feb. 11, 2025. Listserv updates advertised the TDLE Draft EIS comment period and public meetings and hearings. The full listserv updates are linked below and available to read on the project webpage.

Dec. 13, 2024: Draft EIS comment period begins today!



SOUNDTRANSIT
Tacoma Dome Link Extension
Project update
SOUND TRANSIT
Draft EIS comment period begins today!
We invite you to review and comment on the Tacoma Dome Link Extension Draft Environmental Impact Statement (EIS). The Draft EIS describes the light rail routes (called alternatives) and station locations under consideration and how each alternative might affect the surrounding natural and built environment. We are seeking comments on the analysis and findings in the Draft EIS, including possible project impacts, benefits, and mitigation strategies.
Explore the online open house to learn more about the project, access specific sections of the Draft EIS based on your interest, and learn about each alternative under consideration.
Provide your comments by Feb. 10, 2025. Your feedback will be shared with the Sound Transit Board before they confirm or modify the preferred alternative, with a decision expected in 2025. The Board will select the project to be built after the Final EIS is published, which is expected in 2027.
Review and comment now

Jan. 17, 2025: [Draft EIS public meetings/hearings start next week!]

SOUNDTRANSIT

Tacoma Dome Link Extension

Project update

Sound Transit Link light rail arrives at an elevated station via an elevated guideway.

Draft EIS public meetings/hearings start next week!

Join our upcoming virtual and in-person public meetings/hearings about the Tacoma Dome Link Extension's Draft Environmental Impact Statement (EIS). Each meeting is an opportunity to provide formal, verbal comments on our environmental analysis. We will also have printed comment forms at the in-person public meetings/hearings.

- **Virtual:** Tuesday, Jan. 21, 11:30 a.m-1:30 p.m., accessible through Zoom on soundtransit.org/tdlink-deis
- **Tacoma:** Thursday, Jan. 23, 5:30-7:30 p.m., Greater Tacoma Convention Center, 1500 Commerce St, Tacoma, WA 98402
- **Federal Way:** Tuesday, Jan. 28, 5:30-7:30 p.m., Federal Way Performing Arts and Events Center, 31510 Pete von Reichbauer Way S, Federal Way, WA 98003
- **Fife:** Thursday, Jan. 30, 5:30-7:30 p.m., Fife Community Center, 2111 54th Ave E, Fife, WA 98424

Feb. 4, 2025: Please comment now! Draft EIS comment period ends Feb. 10

SOUNDTRANSIT

Tacoma Dome Link Extension

Project update

Sound Transit Link light rail arrives at an elevated station via an elevated guideway, with bus shelters below it for transit connections.

Please comment now! Draft EIS comment period ends Feb. 10

Thanks to everyone who attended our Draft EIS public meetings/hearings in January! If you have not yet submitted comments on the Draft EIS, the comment period closes on Feb. 10.

Ways to comment by Feb. 10:

- **Online**: soundtransit.org/tdlink-comments
- **Email**: tdlinkdeis@soundtransit.org
- **Voicemail**: 206-257-2144
- **Mail**: TDLE Draft Environmental Impact Statement Comments

Feb. 11, 2025: [Thank you for your comments!]

SOUNDTRANSIT

Tacoma Dome Link Extension

Project update

Thank you for your comments!

The Draft Environmental Impact Statement (EIS) comment period for the Tacoma Dome Link Extension (TDLE) is now closed. Thank you for reviewing and providing comments on the Draft EIS. Next, we will review all comments and give a summary to the Sound Transit Board and the public. The Board will review the Draft EIS analysis, public, agency, and Tribal comments, along with other information, before confirming, modifying, or identifying the Preferred Alternative later this year. We will further evaluate the Preferred Alternative and other alternatives in the Final EIS.

We expect to publish a Final EIS in 2027. It will include responses to substantive Draft EIS comments. Following the Final EIS, the Board will select the project to be built, and the Federal Transit Administration will issue a Record of Decision.

We appreciated the important feedback from community members on how we can better engage the community in the future. Please email us if you have additional feedback for the project team about the comment period.

Stay tuned for additional project updates and station access allowance engagement opportunities. We'll send project updates via this email listserv and put updates on the project webpage.

Appendix F: Legal notices

Sound Transit ran legal notices in three publications: *Seattle Times, The News Tribune*, and *The Daily Journal of Commerce* between Dec. 9, 2024, and Jan. 1, 2025. Screenshots of the legal notices and their individual run dates are below.

LEGAL NOTICE
SOUND TRANSIT TACOMA DOME LINK EXTENSION PROJECT
NOTICE OF AVAILABILITY FOR DRAFT ENVIRONMENTAL IMPACT STATEMENT
Sound Transit (the Central Puget Sound Regional Transit Authority) and the Federal Transit Administration (FTA) are issuing this notice to advise the public, Tribes, and agencies that a Draft Environmental Impact Statement (EIS) has been prepared for the Tacoma Dome Link Extension (TDLE) Project. The Draft EIS informs the public, Tribes, agencies, and decision makers about the alternatives and environmental consequences of building and operating an extension of the Link light rail system from the City of Federal Way in King County to the City of Tacoma in Pierce County, Washington. The Draft EIS has been prepared pursuant to the State Environmental Policy Act (SEPA Ch. 43.21C RCW) and the National Environmental Policy Act (NEPA, 23 CFR 771). Sound Transit is the lead agency under SEPA and FTA is the lead agency under NEPA.
The major choice for the project is the location of the light rail alignment and stations. The Sound Transit Board will consider the analysis in the Draft EIS; public, Tribal, and agency comments on the Draft EIS; and other information before confirming or modifying the preferred alternative for the TDLE Project. Sound Transit will then prepare a Final EIS. After publication of Final EIS, the Sound Transit Board will select the project to be built.
Public Meetings and Comment Period
Sound Transit and FTA will hold a 60-day public comment period on the Draft EIS, including one virtual and three in-person public meetings. The comment deadline is February 10, 2025.
The meetings will provide information about the project and include a public hearing to receive public testimony. A court reporter will be available to record formal comments at all of the meetings. Comments may also be provided by online comment form, by email, by phone, or by mail as described below.
Tuesday, 1/21 at a Virtual Public Hearing, accessible via Zoom link on https://us02web.zoom.us/j/85314895495, 11:30 a.m.-1:30 p.m.
Thursday, 1/23 at the Greater Tacoma Convention Center, 1500 Commerce St, Tacoma, WA 98402, 5:30-7:30 p.m.
Tuesday, 1/28 at the Federal Way Performing Arts and Events Center, 31510 Pete Von Reichbauer Way S, Federal Way, WA 98003 5:30-7:30 p.m.
Thursday, 1/30 at the Fife Community Center, 2111 54th Ave E., Fife, WA 98424 5:30-7:30 p.m.

INMIGRACIÓN

Migrantes varados al cancelarse miles de citas para ingresar a EE.UU. tras toma de posesión de Trump

TIJUANA, México (AP)

Llegaron de Haití, Venezuela y de todo el mundo, arrastrando pequeñas maletas con ruedas repletas de ropa y animales de peluche para entretener a sus hijos. Llevaban sus teléfonos celulares en la mano, mostrando que después de meses de espera, finalmente tenían citas para ingresar legalmente a Estados Unidos.

Ahora, afuera de una serie de cruces fronterizos en el norte de México, donde laberintos de barreras de concreto y vallas gruesas eventualmente se extienden hacia Estados Unidos, la esperanza y la emoción se evaporaron en desesperación e incredulidad momentos después de que el presidente Donald Trump asumió el cargo. La Oficina de Aduanas y Protección Fronteriza de Estados Unidos anunció el lunes que la aplicación CBP One, que funcionaba esa mañana, ya no se usaría para admitir migrantes después de facilitar la entrada a casi un millón de personas desde enero de 2023.

Se les dijo a los solicitantes que se cancelaron decenas de miles de citas que estaban programadas para febrero.

Eso fue todo. No había forma de apelar y nadie con quien hablar.

En Tijuana, donde 400 personas eran admitidas diariamente a través de la aplicación en un cruce fronterizo con San Diego, María Mercado tuvo que armarse de valor para revisar su teléfono.

Las lágrimas corrieron por sus mejillas cuando finalmente miró. La cita de su familia era a la 1 p.m., cuatro horas demasiado tarde.

"No sabemos qué vamos a hacer", dijo, parada con su familia a la vista de Estados Unidos.

Hace décadas, abandonó Colombia, que estaba invadida por la violencia de los cárteles de la droga, y se dirigió a Ecuador. Cuando los cárteles asediaron su nueva patria, la familia huyó de nuevo en junio, esta vez a México, con la esperanza de llegar a Estados Unidos.

"No le estoy pidiendo nada al mundo, solo a Dios. Le estoy pidiendo a Dios que nos deje entrar", dijo.

María Mercado, quien es de Colombia pero llegó de Ecuador, reacciona al ver que su cita fue cancelada en la aplicación One de Aduanas y Protección Fronteriza (CBP) de Estados Unidos, mientras ella y su familia esperan en el cruce fronterizo en Tijuana, México, el lunes 20 de enero de 2025.

Los inmigrantes que la rodeaban se abrazaban o lloraban en silencio. Muchos miraban al frente sin saber qué hacer. Un cartel cercano instaba a las personas a obtener la aplicación CBP One. "Esto facilitará su procesamiento", decía.

CBP One ha sido muy popular, especialmente entre venezolanos, cubanos, haitianos y mexicanos. Ahora, estaban varados en la frontera de Estados Unidos o más adentro de México.

CBP One es, en efecto, un sistema de lotería que otorga citas a 1,450 personas al día en uno de los ocho cruces fronterizos. Las personas ingresan a Estados Unidos con "libertad condicional" de inmigración, una autoridad presidencial que el expresidente Joe Biden utilizó más que cualquier otro presidente desde que se introdujo en 1952.

Su desaparición sigue las promesas de campaña de Trump y complacerá a sus críticos, que lo ven como un imán demasiado generoso que atrae a personas a la frontera de México con Estados Unidos.

A pesar de un lanzamiento fallido en enero de 2023, rápidamente se convirtió en una pieza fundamental de la estrategia fronteriza de la administración Biden para expandir las vías legales y al mismo tiempo tomar medidas enérgicas contra el asilo para las personas que ingresan ilegalmente. Los partidarios dicen que puso orden en medio del tumulto de los cruces ilegales.

The 60 day comment period for the Tacoma Dome Link Extension Draft Environmental Impact Statement (EIS) is now open as of Monday, December 16!
The Draft EIS describes the light rail routes (called alternatives) and station locations under consideration and how each alternative might affect the surrounding natural and built environment.
The project team is seeking comments on the analysis and findings in the Draft EIS, including possible project impacts, benefits, and mitigation strategies.
Be sure to visit the online open house by February 10, 2025 to learn more and share your comments.

Appendix J: Outreach toolkit

The team distributed the outreach toolkit to over 55 community organizations, chambers of commerce, and neighborhood associations along the project corridor. The toolkit included resources on how to promote the Draft EIS comment opportunities and events via posters, emails, newsletter content, and social media images and copy.

Toolkit overview

Tool	Description	Suggested use
Poster	Promotes the Draft EIS comment period, meeting dates, and comment submission options. Posters are available in English, Spanish, Korean, Russian, Vietnamese, and Khmer.	Hang on bulletin boards, windows, or email to your network. If printing is an issue, we can provide you with printed posters for distribution. Let us know what language copies you'd like for your organization.
Email/newsletter blurbs	Provides short and long summaries of the project and engagement opportunities.	Send it to your contact list or include it in a newsletter.
Social media posts	Help spread the word about our Draft EIS comment period with the social media posts provided below.	Share these posts directly or adapt them to fit your organization's tone.

Community email/newsletter blurbs

Drop these blurbs directly into your newsletter or adapt as needed.

Long blurb

Comment by Feb. 10, 2025 on proposed light rail routes and station locations
Sound Transit invites you to review and comment on the Tacoma Dome Link Extension (TDLE) Draft Environmental Impact Statement (EIS), which describes the light rail routes (called alternatives) and station locations under consideration and how each alternative might affect the surrounding natural and built environment.

Learn more and get involved
The Draft EIS details the project's potential impacts, benefits, and mitigation strategies. There are several ways to comment:

- Comment now using the online comment form
- Email or voicemail: tdlinkdeis@soundtransit.org or 206-257-2144
- Attend a public meeting and hearing (visit the online open house for dates and locations)
- Submit your comment by mail: TDLE Project, c/o Elma Borbe, Sound Transit, 401 S. Jackson St. Seattle, WA 98104

Your feedback will guide Sound Transit and the Board in selecting the project's preferred alternative in 2025. The Board will select the project to be built after the Final EIS is published, which is expected in 2027.

Sound Transit – Tacoma Dome Link Extension

Page 1 of 2

Short blurb

Sound Transit wants your input on proposed light rail routes and station locations between Federal Way and Tacoma. The Tacoma Dome Link Extension project will add nearly 10 miles to the regional light rail system, connecting the Federal Way Downtown Station to the Tacoma Dome. This extension will provide fast and reliable connections to regional destinations, residential areas, and job centers.

The project's Draft Environmental Impact Statement (EIS) details the project's potential impacts, benefits, and mitigation strategies.

Visit soundtransit.org/tdlink-deis by February 10, 2025 to learn more and share your input.

Social media posts

Sound Transit will be creating Facebook events for each public meeting and hearing. We encourage you to share these events with your followers.

Facebook

Help shape the future of light rail between Federal Way and Tacoma! Sound Transit's Draft Environmental Impact Statement is open for public comment until February 10, 2025. Share your thoughts at soundtransit.org/tdlink-deis.
